ABOUT US

About AiLAB

An engineering company specializing in fintech, artificial intelligence, big data and blockchain.

Since 2018 we have built lending, payments and trading platforms for Mongolia's banks, non-bank financial institutions (micro finance) and brokerages. We design, build and run every system in-house, from core banking systems to the apps customers use every day.

We are now expanding into Central Asia and wider Asia with a partner model.

VISION

To be a financial technology creator for the world.

MISSION

To accelerate financial institutions into Asia.

VALUES

Professionalism · Leadership · AILAB Spirit
Ethics · Collaboration

MOTTO

Mine the Mind

WHY AILAB

Why AILAB

01

Engineering team

Over 80% of our team are engineers, experienced in building large-scale, secure and scalable financial systems.

02

Long-term partnership

Strategic collaboration built on reliability and shared ownership.

03

Resilient technology

Development and infrastructure with security, scalability and performance built in. ISO/IEC 27001.

04

Research & development

Partnerships with universities and international organizations, plus continuous training for our people.

We own systems end to end, from idea to production, across lending, payments, capital markets, education and corporate governance.

ROADMAP

Our project journey

Custom systems

02 · GROWTH
Own platforms, blockchain

03 · EXPANSION
SaaS, Central Asia

2018
- AILAB founded

2019
- Invescore Smart LOS

2020
- Pocket

2021
- iCapital
- iLease
- Pocket Zero (BNPL)

2022
- FinBerry
- Worki
- Pocket Marketplace

2023
- Pocket Leasing
- Digital archive
- TEO blockchain
- Certify.mn

2024
- Pocket KG
- Credit scoring
- Finace
- SaaS LOS
- M-OTC trading

2025
- Fund
- ShMS
- Smart contract

2026
- Pocket Fund
- Seat.mn
- Atlas SaaS
- Pocket KZ

Orange labels mark blockchain projects on the TEO network

SELECTED WORK

Selected work

AI Scoring

CREDIT SCORING · AI

AI engine behind BurenScore, Mongolia's first credit score, used by banks and NBFIs.

Pocket.mn

MULTI-TENANT LENDING

Multi-tenant platform: 10+ lenders run loans, BNPL, leasing and payments on one stack.

Pocket Central Asia

CENTRAL ASIA

Pocket's multi-tenant lending and payments stack, localized for Kazakhstan and Kyrgyzstan.

Worki.mn

AI RECRUITING

A job platform that uses AI to match people with roles, with a built-in CV builder.

iCapital.mn

INVESTING

An investing app and web for stocks and bonds across Mongolia's exchanges.

Prop.mn

PROPTECH

A property management platform: buildings, units, tenants, leases and rent payments in one place.

Certify.mn

BLOCKCHAIN · EDTECH

Digital diplomas verified on the TEO blockchain, trusted by 75+ partner institutions.

M-OTC · TEO

BLOCKCHAIN · CAPITAL MARKETS

Mongolia's first blockchain securities trading, in the FRC regulatory sandbox.

PRODUCTS · 01

Products — data, AI, blockchain

AI

AI solutions

Conversational agents and AI document processing

- Turns statements and documents into data
- Customer service agent
- Less manual work

CRM

Primebee

Customer relationship management system

- Single customer view
- Automated sales pipeline
- Omnichannel communication

DWH

Data

Platform that consolidates data from many sources

- Unified data warehouse
- Data quality control
- Foundation for scoring and BI

GOVERNANCE

ShMS

Online shareholder meeting system

- Registration, attendance, quorum
- Share-weighted e-voting
- Automated minutes

BLOCKCHAIN

Certify & TEO

Digital diplomas and verification on the TEO blockchain

- Verified by the General Authority for Education too+
- 80% lower cost
- M-OTC blockchain trading

PRODUCTS · 02

SaaS products — financial platforms

LENDING

Finace

Unified platform for loan origination, core banking and bank statement analysis

- End-to-end lending automation
- XYP, BurenScore, E-Barimt integrations
- Statement analysis for 7 banks

BROKERAGE

Atlas

Trading, back office, mobile and nominee systems

- Direct links to MSE and MCSD
- IPO, secondary market, bonds
- ISO 27001 compliant

RISK

Credit Scoring

Credit scores for individuals, herders and SMEs

- Behavioral scoring models
- Consistent, faster decisions
- SaaS and revenue-share models

INVEST

Fund

Registry and management system for savings funds

- Member and contribution records
- Automated return calculation
- Reporting and oversight

PROPTECH

Prop.mn

Property management system

- Unit, tenant and lease registry
- Rent billing and payments
- Occupancy and revenue dashboards

TECHNOLOGY

Technology capabilities

01 Development

Web and mobile apps, product design, UX, secure financial APIs

02 Cloud & DevOps

Cloud, CI/CD, high-availability infrastructure, data quality

03 System architecture

Modular architecture that connects ERP, CRM, payments and banking APIs

04 Risk & credit scoring

Risk assessment and behavioral credit scoring

05 AI data processing

Turning statements, IDs and receipts into structured data

06 Process automation

Automated workflows from application to disbursement

07 Blockchain — TEO

Private and public blockchain, verification, smart contracts

08 Information security

ISO/IEC 27001, audit logs, access control, security scans

09 Integrations

XYP, DAN, BurenScore, MSE, MCSD, QPay, SocialPay, E-Barimt

STRATEGY & PARTNERSHIP

Strategy and the partnerships we seek

2020 →

Software development

Custom system development

2022 →

Maintenance & support

Long-term support and enhancement

2023 →

Revenue-share model

Platforms delivered on revenue share

2025–2027

SaaS

SaaS led by Ai

WE ARE LOOKING FOR PARTNERS

SME scoring

Co-develop SME and individual credit scoring for Mongolian lenders.

AI & scoring

Bring your AI decisioning and scoring models to Mongolia with us.

Fraud prevention

Partner on fraud detection and identity checks for banks and NBFIs.

Mongolia partner

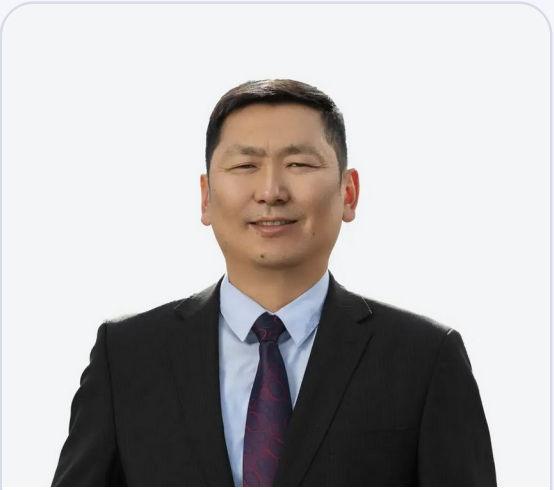

Your local technology partner for integration, hosting and support.

Investment & JV

Technology investment or joint ventures in Mongolia or abroad.
